Subject: Second Review of Notice of Intention to Commence Large Mining Operations, Granite Construction Company, Promontory Aggregate Facility, M/003/0087, Box Elder County, Utah

Dear Mr. Faulhaber:

The Division of Oil, Gas and Mining has completed a review of the revised Notice of Intention to Commence Large Mining Operations (Notice) which was received May 24, 2012, in response to the Division's February 24, 2012, review. Please address the following two comments:

Please label the structure shown on Figure 105.2. The Division requests this information so that the bond can be calculated based on the equipment listed in the plan. If the equipment is mobile then approximant locations should be given. Problems can occur if equipment that is not listed in the bond is on site.

Please use the bonding worksheets for revegetation costs. The information was not provided.

Please provide the response by July 31, 2012, in two complete, clean (redline/strikeout removed) copies of the Notice. The Division will begin to prepare the executive summary and newspaper advertisement to begin public notification. When the public comment period is over and the Division issues final approval, the two copies of the Notice will be stamped approved and one copy will be returned to you.

Thank you for your cooperation. Please call Lynn Kunzler at 801-538-5310 or me at 801-538-5261 if you have questions about this letter.

Sincerely,

Paul B. Baker
Minerals Program Manager
